ANZAAS
Congress 1970 *Search* 76
Congress 1971 news 3, 38, 114, 217
Congress 1971: a post-mortem 354
Congress 1972 news 350, 387
Congress papers in microfiche 182
Financial statements 166
General secretary appointed 78
Medal 1972 394
NSW division 394
NZ division 394
Orbit award 38
Quaternary shorelines committee report 58
SA division 39, 215
Aboriginal identity, government and the law 409
Active transport, relationship to desalination research and oxidative phosphorylation 48
Ada, G.L. – Adventures in immunology 413
Allen, J.A. 78
Anas castanea (Eyton), rearing release and recovery 138
Anomalous water 32, 204, 205
ANZ-ASIA: proposals for human population studies 369
Aphelenchoides fragariae (Ritzema Bos) Christie, a new host *Ficus macrophylla* 170
Australia's future and the perils of diffidence 219
Ayesu-Offei, E.N. – *Rhynchosporium orthosporum* causing leaf scald of *Dactylis glomerata* 203

Barrier Reef, conservation issue 188
Crown of thorns report 192, 262
Beeby, C.E. 217
Bermingham, A., Packham, D.R., Vines, R.G. – Age of petrified forest near Denmark, WA 434
Best, R.J. – Interstate rivalry (letter) 216
Bettenay, E. – *see* Mulcahy
Biochemical genetics and study of electron transport and oxidative phosphorylation 425
Biochemistry, unity and diversity 357
Biostratigraphy and palaeogeography of Cretaceous and Cainozoic, implications of deep sea drilling in Atlantic 251
Bird, E.C.F. – Holocene shore features at Trinity Bay, N. Qld 27
Blackman, D.R. – Are you metricated? 280
Boas, W. – Is research really necessary? 403
Book notices 72, 148, 180, 212, 256, 296, 390, 443
Book reviews 33, 70, 110, 146, 175, 208, 255

Book reviews (cont.)
Adler, Trombaka – Geochemical exploration of the moon and planets 208
Agricultural division of ICI – Catalyst handbook 179
Aitchison – General physics 72
Alonso, Finn – Physics 72
Ames – Numerical methods for partial differential equations 148
Arden, Astill – Numerical algorithms: origins and applications 110
Baker – Modern physics and anti-physics 180
Balasz – Chemistry and molecular biology of intercellular matrix, vols 1 & 2 441; vol. 3 442
Banks – Fluorocarbons and their derivatives 210
Beck, Trier – Programmed course in basic algebra 391
Behrman – Exploring the ocean 296
Blanpied – Physics: structure and evolution 175
Bock, Hering – Nuclear reactions induced by heavy ions 178
Bocris, Reddy – Modern electro-chemistry 179
Bolis – Permeability and function of biological membranes 296
Borisov *et al.* – Organosilicon hetero-polymers, heterocompounds 296
Bottema – Geometric inequalities 35
Boyd, Sanderson – Plasma dynamics 110
Boyden – Impact of civilization on biology of man 180
Brambell – Transmission of passive immunity from mother to young 70
Brame – Applied spectroscopy reviews 34
Branagan – Beneath the scenery 256
Brandt – Statistical and computational methods in data analysis 209
Broman – Introduction to partial differential equations 72
Bronwell – Science and technology in the world of the future 445
Brown – Pyrimidines, Suppl. 1 208
Burton – First course in rings and ideals 146
Butler – Life process 293
Cady, Rotherham – Australian native orchids in colour 178
Chapman – Patterns of change in tropical plants 439
Chiswell, Grigg – SI units 391
Cloud – Adventures in earth history 210
Coller – Physical chemistry: behavioural view 176
Cornwall – Ice ages: nature and effects 209

Book reviews (cont.)
Costa, Greengard – Advances in biochemical psychopharmacology 256
Cull, Drake - Concepts of science, Bk 2 443
Danilov – Chemistry in ionosphere 178
Day, Sternes – Climate and weather 70
de Long – Profile of mathematical logic 211
de Luca, Smith – Fat-soluble vitamins 442
Dicker – Mechanisms of urine concentration and dilution in mammals 295
Dickerson *et al.* – Chemical principles 110
Dickson – Chemical behaviour of the elements 294
Dorian – German-English dictionary of science and technology 444
Duerden – Noise abatement 255
Dungan, Van Wazer – Compilation of reported F19 NMR chemical shifts 44
Ehrlich, Ehrlich – Population, resources, environment 148
Fisher – Studies of Appalachian geology: central and southern 179
Fitzpatrick – Principles of celestial mechanics 176
Fox, Cameron – Food science: chemical approach 443
Fraleigh – Calculus: linear approach 446
Free – Insect pollination of crops 445
Gabor – Innovations: scientific, technological and social 391
Gallo, Santamaria – Research progress in organic, biological and medicinal chemistry, vol. 2 210
Gerald – Applied numeral analysis 112
Gordy, Cook – Microwave molecular spectra 295
Gray – Radical approach to algebra 34
Green – Integral equation methods 110
Greengard, Costa – Role of cycle AMP in cell function 445
Haiduc – Chemistry of inorganic ring systems, parts 1 & 2 443
Hallert – X-ray photogrammetry, basic geometry and quality 147
Hannan – Multiple time series 389
Harris – Principles of human biochemical genetics 111
Healy, Yaldwyn – Australian crustaceans in colour 439
Heath – Investigation by experiment 444
Hecht, Steere – Essays in evolution and genetics in honour of Theodosius Dobzhansky 175
Hero of Alexandria – Pneumatics of Hero of Alexandria 443

Book reviews (cont.)
Herzgerg — Toxic micro-organisms 443
Hewish — Seeing beyond the visible 446
Hinton — Engineers and engineering 390
Holdgate — Antarctic ecology, vol. 2 112
Holeckova, Cristofalo — Aging in cell and tissue culture 210
Holman — Biological research method 294
Huyser — Free-radical chain reactions 390
Jackson — Nuclear reactions 210
Jacobs — Geomagnetic micropulsations 293
Jacobs — Mathematics: a human endeavour; teachers guide 390
Jacquez — First course in computing and numerical methods 71
Jarman — Examples in quantitative zoology 33
Jenkins — Science reference sources 443
Jorgensen — Modern aspects of ligand field theory 443
Kaneff — Picture language machine 444
Karnik — Seismicity of European area 295
Kelly, Groves — Crystallography and crystal defects 442
Kimball — Cell biology 147
Klein — Paul Ehrenfest 208
Klugh — Statistics: essentials of research 176
Koryta *et al.* — Electrochemistry 389
Lang — Introduction to linear algebra 72
Lawrence — OR69 180
Leeper — Australian environment 440
Leeper — Six trace elements in soils 388
Logsdon — Decision to go to the moon 256
Lorrain, Corson — Electromagnetic fields and waves 112
Luckwill, Cutting — Physiology of tree crops 389
Lyons — Chemistry and uses of fire retardants 439
McKerns — The gonads 293
McKittrick — Guided assignments in PSSC physics 72
McMinn — Allan Cunningham, botanist and explorer 294
Maritz — Empirical bayes methods 33
Martin — Marine chemistry, vol. 2 177
Martin, Spearman — Elementary particle theory 35
Martinson *et al.* — Beam foil spectroscopy 444

Book reviews (cont.)
Marwick — Witchcraft and sorcery 256
Mason, Melson — Lunar rocks 296
Maunder — Value of the weather 177
Melton — Principles of mass spectrometry and negative ions 445
Mizell — Recent results in cancer research 111
Munster — Classical thermodynamics 295
Murrell *et al.* — Valence theory 445
Musgrave — Crystal acoustics 71
Neville — Insect ultrastructure 443
Ney — Advances in probability 391
O'Dell — Electrodynamics of magneto-electric media, vol. 2 146
O'Donnell, Sangster — Principles of radiation chemistry 71
Osman Hill — Primates, vol. 8 34
Pacholczyk — Radio astrophysics 180
Palmer *et al.* — Atomic collision phenomena in solids 208
Passwater — Guide to fluorescence literature, vol. 2 212
Pickering — Modern analytical chemistry 440
Piel *et al.* — The biosphere 295
Pilling — Diprotodon to detribalization 112
Pointon, Elwell — Physics for electrical engineers 445
Powles — Particles and interactions 177
Prescott — The algae: a review 111
Puri — Concepts in physical science; Experiments in physical science 212
Rabinowitch, Lewis — Men in space 72
Rankama — The Precambrian, vol. 4 71
Rech, Moore — Introduction to psychopharmacology 441
Reilly, Van der Pyl — Physical science: interrelated course 147
Reimann — Physics, vols 1 & 2 391
Ride — Guide to native mammals of Australia 33
Roederer — Dynamics of geomagnetically trapped radiation 256
Rosenblueth — Mind and brain: philosophy of science 390
Roy, Trudinger — Biochemistry of inorganic compounds of sulphur 175
Royal Society — Selected lectures, vol. 3 212
Rozantsev — Free nitroxyl radicals 34
Ruch — Quantitative analysis of gaseous pollutants 36
Runcorn — Palaeogeophysics 209
Rymer — Electron diffraction 388
Saini — Architecture in tropical Australia 209
Schraer — Biological calcification: cellular and molecular aspects 70
Schultz — Biochemistry of the phagocytic process 211

Book reviews (cont.)
Scientific American — Frontiers in astronomy 212
Seddon — Swan River landscape 389
Shulman — Optical data processing 296
Skerman — Abstracts of microbiological methods 211
Slade, Jenkins — Thermal characterization techniques, vol. 2 176
Slatyer, Perry — Arid lands of Aust. 255
Slayter — Optical methods in biology 294
Slonim, Lyubimov — NMR of polymers 179
Sloyer — Algebra and its applications 72
Smyth — Physiology of cestodes 148
Spector — Liberal arts mathematics 445
Stranks *et al.* — Chemistry: structural view 389
Swan, Lewis — Proc. 3rd nutrition conference for feed manufacturers 35
Synge — Talking about relativity 444
Taylor — Programmed study aid for introductory physics, parts 1 & 2 147
Thomson — Dictionary of organic compounds 177
Timmerhaus — Advances in cryogenic engineering 35
Tinbergen, Falkus — Signals for survival 388
Tracey *et al.* — Modern physical science 444
Tucker *et al.* — Global geophysics 390
Unesco — Role of science and technology in economic development 296
Veis — Biological polyelectrolytes 440
Vincent — Manual for the practical study of root-nodule bacteria 111
Walker — Chemistry and physics of carbon 36
Walsh — Symposium on marine sciences 146
Weaver — Education for peaceful uses of nuclear explosives 178
Wheatley — Chemical consequences of nuclear spin 439
Wiesner — Hydrometeorology 146
Williams — Handbook of atomic elements 36
Wolf — Progress in optics 444
Wolstenholme, O'Connor — Frozen cell 33
Work, Woek — Laboratory techniques in biochemistry and molecular biology 388
Wyllie — Elementary statistical mechanics 72
Zabick — Chemistry of carbonyl group, vol. 2 440

Books received 148, 212, 391, 446
Bertiss — Data structures: theory and practice 446
Brinkhurst — Aquatic Oligochaeta known from Aust., NZ, Tas. and adjacent islands 212
Costa, Giacobini — Biochemistry of simple neuronal models 148
Currey — Animal skeletons 446
Eisenberg, Greiner — Nuclear models 446
Keedy, Bittinger — Mathematics: modern introduction 148
Kellman — Secondary plant succession in tropical montane Mindanao 391
Kettle — Problems of insect control 212
MacFadyen — Survey of incidence of speech defects in S.E. Qld 148
Odum — Environment, power and society 446
Padelford — Public policy for the seas 148
Price — Origin and evolution of life 446
Reynolds — Western economics in western economies 391
Royal Zool. Soc. of NSW — Kangaroos and men 446
Stevens — Chemical kinetics 148
Treves — Locally convex spaces and linear partial differential equations 446
Wilson, Newall — General and inorganic chemistry 212

Borrie, W.D. — Population factor 363
Bowen, I. — People in poverty (essay review) 173
Bradbury, R.H. — Science and environment (letter) 355
Bullen, K.E. 350
Bults, H.G. — *see* Myers
Butler, B.E. — Economic study of Keepit Dam (essay review) 144

Caldersmith, G. — Primal cohesion and scientist (letter) 356
Charcoal age from old jungle fowl nests, Melville, I. 28
Chestnut teal (*Anas castanae* [Eyton]), in Vic., rearing, release and recovery 138
Chinese road to socialism (essay review) 291
Cladosporium resinae isolated from NZ atmosphere 384
Clark, M.G. — *see* Williams, J.F.
Coal outlook in Australia 306
Brown coal in Victoria 313
Cockburn Sound naval facility
Environmental management 8
Responsibility 1, 18
Coleman, P.J., Veevers, J.J. — Microfossils from Philip I. indicate minimum age of Lower Miocene for Norfolk Ridge, S.W. Pacific 289
Collagen, molecular packing structre 171
Comment 192, 354
Communication and science 213, 355
Condensation product of ethanolamine with carbon disulphide, analytical use 69
Conferences and meetings 40, 78, 118, 150, 185, 260, 348, 351, 397
Connell, D.W. — Barrier Reef conservation issue 188
Conservation of Barrier Reef 188
Conservation of New Guinea land birds 66
Cooper, W.T. — Waste disposal, 1971 Australian conference (letter) 120
Cox, W.F. — C'wealth public service as employer of scientists (letter) 40
Crawford, J.G. 217
Crook, K.A.W. — Cockburn Sound naval facility: environmental management 8
Crown of thorns report 192, 262
Cummins, J.E. — New aid to scientific communication 5

Daily, B., Milnes, A.R. — Late Precambrian tillites and younger metasediments on Dudley Pen., Kangaroo I., SA 431
Dating inner barrier features, Angourie, N. NSW 140
Davis, C.W. 78, 347
de Bruin, H.J. — What next after Jervis Bay 419
Deep resistivity, magneto-telluric sounding combined, Eromanga Basin 103
Dehydration and recovery in sheep 202
Derbyshire, E., Peterson, J.A. — Status and correlation of Pleistocene glacial episodes in S.E. Aust. 285
Desalination research, relationship to active transport and oxidative phosphorylation 48
Desert, the challenge 206
Downes, R.G. 117
Duricrust chronology 263
Dwyer, P.D. — Beyond biology: alienation and environment 153
Crown of thorns report (letter) 262

Economic policy (national) and international firm 194
Editorials 1, 37, 73, 113, 181, 213, 257, 297, 349, 393
